TALKING POINTS FOR YOU

- The COVID-19 vaccine supply is extremely limited, and the priority is being given to Ohio's most vulnerable residents and school personnel, who have committed to remaining open or reopening schools full time or in hybrid mode by March 1.
- Trust the facts: the COVID-19 vaccines are safe and effective. COVID-19 vaccines currently available in the U.S. were rigorously tested and do not give you COVID-19 or cause a positive COVID-19 test.
- We have to do all that we can to continue protecting ourselves and others from contracting and spreading COVID-19. It's important that we continue to wash our hands regularly, maintain social distancing, and wear our masks anytime we are out with others.

HOW YOU CAN HELP

- ✓ Set a good example, by wearing a mask, making virtual accommodations, and maintaining social distance when meeting face-to-face with others.
- ✓ Post on social media to describe how you are working to keep your employees and customers safe (and what they can do to help you maintain a safe environment) using the suggested hashtags.
- ✓ Submit letters to the editor or local news outlets that support the "COVID-19 Key Messages;" wear a mask, wash hands often, and social distance.
- ✓ Participate in local media/radio interviews to support "COVID-19 Key Messages," and help showcase how you and your colleagues in the industry are supporting Ohio's Responsible Restart.
